PROFESSIONAL SUMMARY

Computer Science undergraduate specializing in Artificial Intelligence, Machine Learning, and full-stack development. Experienced in RAG systems, multi-agent applications, optimization engines, and computer vision solutions using Python, React, TensorFlow, PyTorch, LangChain, and SQL. Mentored 300+ students, led technical communities, participated in 7+ hackathons, and delivered production-ready AI systems.

WORK EXPERIENCE

AI Subject Matter Expert (SME) & Software Developer | THEAX | Jun 2025 – Present

- Trained and mentored 300+ students in Agentic AI, RAG, LangChain, CrewAI, PyTorch, and Generative AI.
- Designed backend APIs and relational database schemas using Python and Node.js.
- Built full-stack AI applications with React and Python, focusing on reliable data pipelines and maintainable architectures.
- Delivered deployment-ready products, including a confidential solution being prepared for presentation at the IBM Innovation Centre of Education.

PROJECTS

- [LaunchPad AI](#) | Python, React, CrewAI, LangChain, ChromaDB, RAG — Built and deployed a multi-agent startup validation platform using specialized agents (Market Oracle, Feature Architect, Tech Stack Architect, Product Strategist) backed by a startup RAG knowledge base.
- TopperIAS | React, TypeScript, Flask, OpenAI API, OCR — Developed an AI-powered UPSC preparation platform featuring current-affairs analysis, document uploads, 5Ws & 1H reasoning, and interactive MCQ generation.
- AdaptiPlan | Python, TensorFlow, Scikit-learn, Google OR-Tools, Flask — Designed the AI/ML backend for an intelligent workforce scheduler with feedback learning and constraint-based optimization.
- AI-Powered ASL Detection | TensorFlow, MobileNetV2, OpenCV — Developed a real-time sign-language-to-speech system and secured a Top-9 finish among 118 teams at the SUIET CODEMEET Hackathon.

ADDITIONAL COLLABORATIVE PROJECTS

- RiskRobo | FastAPI, AI Research Systems, Web3 Analytics — Contributed to AI-driven blockchain analysis and smart-contract risk assessment modules within a DeFi security platform.

LEADERSHIP & COMMUNITY

- Vice Chair, IEEE Student Branch (2 years) — Organized and managed 15+ technical events, workshops, IEEE Day programs, and student initiatives.
- Class Representative (CR) from first year through final year, coordinating academic and extracurricular activities.
- Conducted outreach workshops for schools and PU students, including Fundamentals of Arduino sessions.
- Served as Master of Ceremonies for institutional events with audiences exceeding 200 participants.
- Mentored 300+ students in Generative AI, RAG architectures, LangChain, CrewAI, and PyTorch.

ACHIEVEMENTS & HACKATHONS

- Third Place — IBM ICE Day 2024 Technical Paper Presentation on Artificial Intelligence and Machine Learning (10 May 2024).
- Second Place — 'Finding Nemo' Capture The Flag Competition, MatrixFusion 2.0, Yenepoya Institute of Technology (16 July 2024).
- Participated in 7+ hackathons across four years, consistently qualifying for advanced rounds and building AI-focused solutions.
- Team SYCAMORE achieved a Top-9 finish among 118 teams at the SUIET CODEMEET Hackathon.

- Participated in MumbaiHacks 2024, recognized by Guinness World Records as the world's largest Generative AI hackathon with 2,000+ developers.

EDUCATION

B.Tech in Computer Science Engineering, Yenepoya Institute of Technology, Mangalore
September 2022 – April 2026 | CGPA: 7.5/10

SKILLS

- Languages (Programming): Python, SQL, JavaScript, C++, C
- Frameworks: React, Node.js, Flask, FastAPI, TensorFlow, PyTorch, Scikit-learn
- AI & LLMs: LangChain, CrewAI, RAG, ChromaDB, FAISSDB, OpenCV, Generative AI, OR-Tools, Huggingface
- Databases & Tools: MySQL, PostgreSQL, Git, Linux, Jupyter Notebook, Google Colab, Excel
- Core Concepts: DSA, ETL Pipelines, Data Analytics, Machine Learning, Deep Learning

LANGUAGES

- English (Professional)
- Malayalam (Native)
- Kannada (Professional Working Proficiency)
- Hindi (Working Proficiency)
- Tamil (Conversational)
- German / Deutsch (Learning via Duolingo)

CERTIFICATIONS

- Deep Learning with PyTorch (Udemy)
- Machine Learning with Python (freeCodeCamp)
